No part of this book may be reproduced, stored in a retrieval system, or transmitted in any form or by any means — electronic, mechanical, photocopying, recording or otherwise — without the prior written permission of the author, except for brief quotations used in reviews and the code samples, which readers are free to use in their own projects.

Every code example in this book was written for this book and tested in a modern Chromium-based browser. Each "Output Preview" image is a real screenshot of that exact code running in the browser. The fictional brands, people and products in the examples and projects (Riya Sen, Saffron Table, FlowNote, Sonique, Wanderly, Metrica, Lumen and others) are invented for teaching; any resemblance to real businesses is coincidental.

While every precaution has been taken in preparing this book, the author and publisher assume no responsibility for errors or omissions, or for damages resulting from the use of the information contained herein. Web standards evolve; always confirm current browser support for newer features.
